SILENCE IS CONSENT - LET YOUR VOICE BE HEARD

The worst day in the history of the United States of America—September 11, 2001. **NEVER FORGET!** Who were we before 9/11, and who are we 10 years later? Do we want to live free in the greatest country in the world, or will we allow the government to make America just another third-world country in a “world government” where the few rule and the people do not matter except to serve that government? We cannot take anything on face value. Question everything—and look at everything from the viewpoint of **what the domino effect will be.**

The “democracy” the government and other countries talk about is not the American form of government. The pure democracy—direct action by the people—is what you see on the news, sometimes because of brutal treatment by dictators, and sometimes, lately, it’s because the population is already totally dependent on their “entitlement” government and that government no longer has the money to support those entitlements. They don’t have representation in the government, so they take it to the streets. **THIS IS THE “DEMOCRACY” OUR GOVERNMENT WANTS AS PART OF THE FUNDAMENTAL CHANGE.** The government rules, and it’s survival of the fittest among the people—in the streets.

America believes in unalienable rights from our Creator, offers freedoms and opportunities to our people, and has welcomed and supported so many others who also believe in what America stands for. America has always been willing and ready to stand beside and behind our allies when they need help. America believes that our people make us great, and our Representative Republic was created for our people. America **IS** exceptional, and it always has been. So, it is inevitable that those with an insatiable lust for power will want to destroy what we have and what other countries and other people also want to have.

The American people—united for America—cannot be beaten. The government knows that, so they choose to divide and conquer, separate everybody by their differences and turn Americans against each other; make promises they know they won’t keep; and move on to the next group to promise them what they want. Create more “crises”—class wars, race wars—the ends justify the means, and they will do it by any means possible. Americans **CAN** overcome anything—**IT JUST MAKES IT A LITTLE MORE DIFFICULT WHEN YOUR OWN GOVERNMENT WILL NOT LET YOU BE AMERICANS OR DEFEND YOUR COUNTRY.**

America offers equal **opportunity** to everyone and individual rights and freedoms to pursue those opportunities. There are **no guarantees.** We are expected to be responsible for ourselves and our choices, and we are free to reap the rewards of our labor. However, this administration and its millions of ecstatic followers doesn’t think it’s “fair” for one person have something another person does not have, which makes it interesting when you face them with that philosophy on a personal level. Do they believe they should work to support everybody else? **NO!** But they do believe that **the government** should support everybody. OK, then where does that “government” money come from? It’s sad that so many do not have a basic understanding of what is going on.

It is a brilliant plan that is being executed. **USE THE RIGHTS AND FREEDOMS OF AMERICA TO DESTROY AMERICA.** Domestic enemies of our country have been working for many years to infiltrate every facet of local and federal government and civil involvement to ensure complete control in bringing down the last best hope of countries around the world. Remember, this is about **fundamental change**

and redistribution of wealth to achieve social and economic justice. It is about a select group of “special” people creating a Global Government that uses International Law to rule all the countries of the world. One huge government; the law is the same for everybody; and everybody is equal, which translates to “nobody has anything” because everything belongs to the government.

On October 30, 2008, presidential candidate Obama announced: “We are five days away from fundamentally changing the United States of America. He told you the truth that time, and he meant it—but millions of people chose not to take that literally or even consider what that actually meant. In October 2001, while still a state senator from Illinois, he said that our Constitution is a “charter of negative liberties” and “. . . Says what the states can’t do to you. Says what the federal government can’t do to you, **but it doesn’t say what the federal government or state government must do on your behalf.**” **That it does not address political or economic justice and redistributive change.** Again, millions of people did not even attempt to understand what he was actually saying.

Americans are trying to believe that this is not going to **affect them personally**—that it can’t happen in America. The East Coast just went through tropical storm Irene. There was no electricity, no water, no toilets, no way to keep food refrigerated. People were **personally affected**, so we knew it was real—and we were very eager to **USE OUR VOICES** to complain to talk radio, to the utility company, and to State and local officials because we **felt** the pain. Now, as difficult as that was, in reality it was **only an inconvenience that ended (for most people) after about 7 days** (or earlier). **It did not change our life forever. FUNDAMENTAL CHANGE TO THE UNITED STATES OF AMERICA IS CHANGING OUR LIVES FOREVER! ARE WE WILLING TO COMPLAIN ABOUT THAT??** If we can’t take a week without conveniences, what will we do—what kind of people will we be—when we are forced to live in the **TRANSFORMED** America—without rights and freedoms? “Conveniences” will not exist.

The crack in the foundation of America has been made, and the crumbling continues every day.

The undermining of our country must include the eradication of our Constitution. Knowing that this could not be done openly, it is being done piece by piece. Congress is made irrelevant by diverting its legislative powers to executive orders, new or amended policies, federal agency regulations, and other back-door power grabs. Commissions, committees, super-committees are making decisions for the full Congress, taking away the rights of states and their American citizens to have all our elected representatives participate in all decisions that affect us and our country.

Instead of upholding and enforcing our laws, our own Department of Justice decides which laws it will defend and which ones it will enforce, depending on whose interests are at stake and which political faction they are pandering to at any particular time.

Free speech is being strangled by political correctness, and those who are “offended” are encouraged to sue, which, of course is a form of **redistribution**—taking whatever one person has and giving it to somebody else. It also helps if the courts are staffed—local through Supreme—with progressives who agree with the leftist agenda. The right to bear arms is constantly attacked by more and more ludicrous regulation to keep American citizens unprotected. Criminals will always find a way to have weapons, while the government chooses to support taking away Americans’ right to self-protection. Our Department of Justice refuses to protect our country against illegal immigration and the terrorist activities that are an immediate threat to national security. But it does not hesitate to sue individual, sovereign states when those states try to exercise their Constitutional states’ rights to make sure that the government does not become too powerful over our people.

Parents are being denied free choices for their children. Our country’s history books are being changed, and sex education is what the government deems appropriate and at whatever age the government deems appropriate. Food choice for children is being taken over by the government. Elimination of certain foods will close companies and eliminate jobs for millions more Americans. If the government determines your child is too heavy, you could be accused of child abuse or neglect—even if the child is merely going through one of the many changes children go through in the process of growing. The schools have your children’s attention for more hours in the day than you do. You must be aware of what goes on with your children’s education.

College students and youth, in general, who think they are being empowered as “activists,” don’t realize they are being used. They’re not standing up for something they believe in—because they don’t understand what they’re out there crusading for. (See insert for video on students asked to share their high GPA.) They are “advocating” to destroy the only form of government in the only country that will

allow them to protest without fear; that allows them freedom of choice and freedom of movement, freedom of thought; freedom of religion or no religion. They need a face-to-face with young people in other countries who risk their lives to try for the life these Americans already have and don't appreciate.

Christianity is under attack in America and forced "political correctness" is giving preferential treatment for to Muslims and the Islamic faith under the guise of religious freedom and tolerance. No one has to instruct Americans on religious freedom and tolerance. America was founded by people fleeing England to escape the dictates of the king and the church, and they made it clear that we would have a separation of church and state. Islam controls every aspect of a Muslim's life and does not allow for the separation that is part of the basis of our country. Every culture is free to celebrate their religion—within the scope of the laws of the United States of America—and no religion is allowed to be dictated or favored by the American government.

Our United States military forces are exceptional in their dedication, their ability, their allegiance, and their willingness to defend our country. They are proud and fearless fighters. But our government will not let them do their job. They won't let them fight! The rules of engagement are constantly changed, severely restricting our forces and undermining their safety. See insert for amendment allowing military to defend themselves.

<http://www.thenewamerican.com/usnews/politics/8524-ice-state-cooperation-not-needed-to-run-secure-communities-program> ICE Chief John Morton has terminated the federal Secure Communities program with the nearly 40 states that have it, notifying those governors that the federal government does not need the cooperation of states to either run the program or deport criminal aliens.

"Exercising Prosecutorial Discretion Consistent with the Civil Immigration Enforcement Priorities of the Agency for the Apprehension, Detention, and Removal of Aliens" **PLEASE GO TO THE WEBSITE TO SEE THAT THIS MEMO IS A BLANKET AMNESTY FOR ILLEGAL ALIENS TO STAY IN OUR COUNTRY—WITHOUT ANY PARTICIPATION FROM CONGRESS AND, THEREFORE, WITHOUT ANY PARTICIPATION FROM OR CONSIDERATION OF AMERICAN CITIZENS. AND, WORK PERMITS WILL BE GIVEN TO ILLEGAL ALIENS (AGAIN, IN DEFIANCE OF FEDERAL LAW) WHILE UNEMPLOYMENT FOR AMERICAN CITIZENS IS AT 9%.**

President Obama's Speech to National Council of La Raza (The Race) <http://www.nclr.org> the largest national Hispanic civil rights and advocacy organization in the U.S., working to improve opportunities for Hispanic Americans. It has 300 affiliated community-based organizations and reaches millions of Hispanics each year in 41 states, Puerto Rico, and the District of Columbia. <http://www.whitehouse.gov/the-press-office/2011/07/25/remarks-president-national-council-la-raza> White House Press Release-TRANSCRIPT of the speech above. Below are only excerpts. Go to the site for the entire transcript.

The President has several LaRaza "alumni" in his administration and told this group that "Our American family will only be as strong as our growing Latino community." **DO YOU GET THAT—ANY OTHER ETHNIC GROUP DOES NOT COUNT—AMERICA DEPENDS ONLY ON LATINOS.**

The President: Now, I know some people want me to bypass Congress and change the laws on my own . . . But that's not how our system works . . . That's not how our democracy functions. That's not how our Constitution is written. **Here's the only thing you should know. The Democrats and your President are with you. Don't get confused about that. Remember who it is that we need to move in order to actually change the laws. DO YOU SEE THE MESSAGE HE IS GIVING TO THIS AUDIENCE—KEEP UP YOUR PROTESTS, AND WE WILL USE A DIFFERENT WAY TO GET WHAT WE WANT.**

The President: So I need you to keep building a movement for change outside of Washington, **one that they can't stop.** One that's greater than this community. **We need a movement that bridges party lines, that unites business and labor and faith communities and law enforcement communities, and all who know that America cannot continue operating with a broken immigration system. And I will be there every step of the way. I will keep up this fight . . .** I do want you to remember everything that **we've already accomplished together just in two and a half years.**

Massachusetts—Sanctuary for Illegal Aliens. In Milford, Nicolas Guaman, was charged with motor vehicle homicide, operating under the influence of liquor, negligent operation, leaving the scene of

personal injury and death, possession of open container of alcohol in vehicle, failure to stop for police, unlicensed operation of a motor vehicle, failure to stop or yield, resisting arrest and wanton or reckless conduct creating risk to a child. His 6-year-old son was in the pickup truck. Gauman struck a young man on a motorcycle, dragged him a quarter of a mile stuck in the wheel well of the truck, ran up on a curb, which dislodged the young man, and then backed up over him and kept going, leaving him to die. Gauman is an **illegal alien** who has been in our country for 5 years and **he has a job in construction**. He has been arrested three times since 2007 for driving without a license, and in 2008 got a year of probation for assault and battery on a police officer and attacking a firefighter. Yet, nothing was done about him until **HE KILLED** someone. Thank you Gov. Deval Patrick for creating a sanctuary state in Massachusetts and caring more about illegal aliens than you do about your country and American citizens. Thank you also to the president for his back-door amnesty through the DHS and ICE that allows illegal aliens to stay in our country, gives them work permits, and will attract even more illegal immigration—**POSING AN IMMEDIATE THREAT TO OUR NATIONAL SECURITY AND THE LIVES OF MORE AMERICAN CITIZENS**.

<http://www.cnsnews.com/news/article/administration-partners-foreign-gov-s-pr> U.S. Labor Dept. has signed partnership agreements with Costa Rica, Dominican Republic, El Salvador, Mexico, Nicaragua, and Guatemala to protect the labor rights of both legal and **illegal** migrants working in the U.S. And, hope to add South East Asia and others in the Caribbean. VIDEO AT SITE. Labor Sec., Hilda Solis, said that all migrant workers have a “right to a legal wage.” **“On behalf of President Barack Obama**, we stand together to denounce hatred, violence, and prejudice and recommit ourselves to protecting migrant women in the American workplace.”

<http://www.cnsnews.com/news/article/hhs-awards-85-million-obamacare-money-25> The Department of Health and Human Services (HHS) gave about \$8.5 million FROM OBAMACARE to 25 health centers for “migrant” workers making **up to 200%** of federal poverty level. Illegal immigrants make up an estimated 25% of all migrant farm workers, with disproportionate amounts residing in California, Texas, Florida, and Georgia. “. . . 25% of farm workers are undocumented immigrants.” (Pew Hispanic Center 2009 report). <http://pewhispanic.org/files/reports/107.pdf> “A Portrait of Unauthorized Immigrants in the United States-52 pages. WHAT IS CONSIDERED “POOR” IN THE U.S.? Medicaid is health care for the poor—but what is considered “poor” nowadays? **EYE-OPENER ABOUT YOUR TAX MONEY. Illegal aliens are considered to be “poor.”** Points: 1) Have you ever seen a Bill in the General Assembly that uses the actual 100% poverty level to determine eligibility? Eligibility usually allows about 150% to 200% of the poverty level. 2) Is the poverty level determined by income alone—**BEFORE all the benefits are added to income** (food stamps, health care, child care, etc., etc.) What about the people who have to pay for all that stuff themselves?
